## The International College of Surgeons Taiwan Section ( ICSTW)

The International College of Surgeons( ICS) was founded by Dr. Max Thorek in Geneva, Switzerland in 1935 for bringing surgeons of all nations and people together to build a force for international understanding, good will and development of the art and science of surgery. ICS is the only NGO representing surgical field that has an official relationship with WHO. The College has more than 5000 members in about 100 countries, and Taiwan Section (ICSTW) was a national member since the very beginning of founding period.

ICS dedicates to promoting excellence of all surgical specialists, pathologists, anesthesiologist and radiologists worldwide, and also devotes to global humanitarian surgeries for those areas in need. ICWTW is one of the most active members who devote to the international medical volunteer services.

We have a Taiwan Room in the International Museum of Surgical Science in Chicago, and exhibits the medical development and achievements in Taiwan.

We welcome all surgeons who are interested in International medical service to join us.

Chin-Kuo Chen, MD, PhD.

President of ICSTW

Department of Otolaryngology, Chang Gung Memorial Hospital Keelung

College of Medicine, Chang Gung University
